The Plant A Seed Campaign

The Japanese phrase for “Plant a Seed” is Tané Maki.

Nihonmachi Little Friends (NLF) is planting a seed to ensure the future stability and vitality of its preschool programs in San Francisco’s Japantown.

Through the Plant A Seed Campaign, NLF is creating a new preschool building addition on the lot adjoining its historic Julia Morgan-designed building. The new building will allow NLF to increase enrollment and improve its preschool facilities while respectfully acknowledging and preserving the original 1830 Sutter building.

The $3.5 million Plant A Seed Campaign is the next step in NLF’s commitment to the future of the culture and community of San Francisco’s Japantown.

Now is the time to help plant a seed and help NLF grow and support children and families in San Francisco.
